

Software	Feature Name	Difficulty
Mango	Change Password Bug	Easy - Medium (Est. 1 files; 25 LOC)

Learning Goals:

- Perform concept location through an advanced change request
- Perform impact analysis and make technical decisions based on the analysis results
- Practice reverse engineering
- Practice fixing bugs
- Document software design and analysis

Current Behavior

When attempting to change an administrator's password in the "Users" page, an error occurs and the password is not changed.

Expected Behavior

This error should be fixed, allowing an administrator's password to be changed without an error popup appearing.
